

Web Site Content and Postcard Announcement

[HOME PAGE]

In your business, it's all about the details. Managing the details will put you – and keep you – on time, on budget and ahead of the competition.

WestWorks Engineering is a responsive, [experienced](#) civil engineering consulting firm. We specialize in land development and all its associated details. [LINK TO EXPERIENCE PAGE]

Value engineering is incorporated into every design. We focus on creating strategically built, cost-effective sites that provide you with the infrastructure you need now and the flexibility you'll need later.

Because there are a lot of details to be dealt with. Let us help you manage them with ease.

[PHILOSOPHY PAGE]

At WestWorks, we've removed the clutter and overhead to get to the heart of the work. Our goal is to provide an exceptional product in a timely manner. Because we know our timeliness means savings for you.

We work hard to have a P.E. intimately involved in every project. This guarantees a better product in fewer revisions. It also guarantees that your project will stay on track and out of trouble.

At WestWorks, we believe in the adage "time is money." And we value both – equally.

[EXPERIENCE PAGE]

Knowledge is one thing. Experience is another.

WestWorks Engineering is a partnership of experienced Professional Engineers who have a passion for listening well and providing superior solution-driven design for your short- and long-term needs. We take the time to understand your business model and tailor our services to help you execute it successfully.

Our experience working through hundreds of successful projects means we can navigate the municipal system easily, getting you from concept to approval quickly. It also means we've established solid, positive relationships with government agencies – Relationships that encourage trust and a mutual effort to make the process smooth and worry-free, every time.

[PROJECT TEAM COORDINATION]

WestWorks Engineering has a reputation for working only with consultants at the top of their games. We customize each team specifically for your project, bringing together the most talented individuals available. Our team members include:

- Surveying
- Geotechnical Engineering
- Landscape Architecture
- Planning
